

TX**T**ALERT™

Simple | Convenient | Affordable

TXT**ALERT** offers your guests, customers, clients, staff, or neighbors a **MUCH** more convenient way to communicate issues directly to the people that can deal with them immediately.

TXT**ALERT** is a simple, efficient, effective, and affordable group text broadcast service that allows the public to notify you of any issues so they can be handled immediately. You are assigned an exclusive phone number with your area code that can receive incoming text messages. Your messages can then be routed to any combination of cell phones, emails, text capable tablets, or alphanumeric pagers.

by  **Contact Wireless**
The Messaging Experts

TXT))ALERT™

WHY TXTALERT?

- Unlimited sending and receiving ability
- Add, remove or change any member of a group at any time through a secure web based interface or by texting a keyword
- Choose to have messages sent to the entire group, or select specific individuals in a group
- Optional canned response to all received messages
- Exportable message log

Give your staff, customers, and visitors a way to immediately report issues and concerns with a TEXT

Route TXTALERT messages to any combination of text capable mobile devices or computers
